PROFESSIONAL PROFILE

CCNA-certified IT Technician with strong focus on networking, infrastructure, and NOC operations. Hands-on experience configuring Cisco routers and switches, VLANs, DHCP, NAT, troubleshooting, monitoring, and incident resolution. Over two years of teaching experience delivering advanced technical content in cryptography, security, databases, and web development. Demonstrated ability to lead technical practices, document processes, and guide groups of 25–30 students through real-world projects. English level B1+.

TECHNICAL SKILLS

Networking & Infrastructure: VLAN, Trunking, SVI, Subnetting/CIDR, ACLs, Static Routing, OSPF, DHCP, NAT/PAT, SSH, EtherChannel, STP/RSTP, SNMP, structured cabling.

Analysis Tools: Packet Tracer, Wireshark.

Systems: Windows, Linux (basic).

Programming / Dev: PHP (advanced), CodeIgniter (fluent), MySQL (fluent), Bash (basic), Python (basic).

Version Control: Git and GitHub.

Other Tools: Google Cloud, N8N, Google Sheets (scripts), automation.

Soft Skills: communication, leadership, teamwork, technical documentation, classroom management, results orientation, problem solving.

PROFESSIONAL EXPERIENCE

Lead Instructor – Data Management

Instituto Técnico Río Tercero (ITR3) | Jun 2025 – Present

- Lead student training in cryptography, information security, sorting algorithms, Huffman coding, and data structures.
- Design and deliver 6 weekly hours of project-based theoretical/practical classes.
- Develop original material: assessments, guided practices, lab exercises, and theoretical content.
- Implemented applied practices that strengthened students' technical understanding and competence.

Lead Instructor – Application Lab (PHP / CodeIgniter)

ITR3 | Feb 2024 – Present

- Train students in web development with PHP, MVC, CodeIgniter, and MySQL.
- Guide end-to-end projects: functional CRUDs, automation with N8N, Google Cloud, and Sheets scripts.
- Students delivered functional websites and mastered new technical tools.
- Develop assessments, practices, step-by-step guides, and support material.

Substitute Instructor – Data Management

ITR3 | Nov 2023 – Jun 2025

- Taught theoretical and practical classes on data analysis and representation.
- Designed guides, exams, and applied exercises for lab environments.

Internship – IT & Network Support

Municipality of Río Tercero | 2022 (2 months)

- Maintained all of the municipality's IT equipment.
- Structured cabling, connectivity verification, and router/switch diagnostics.
- Resolved daily network, hardware, and software tickets.

Electrician's Assistant

2022

- Supported electrical installations and residential/commercial maintenance.

EDUCATION

University Degree in Telecommunications (Tecnatura) – UTN FRC – 2026–2028

IT Technician – ITR3 – 2016–2022

Instituto Global Communication – 2023

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) – CCNA1/2/3 (Credly)
- English for IT 1 & 2 (Credly)
- AWS Cloud Practitioner Essentials – AWS Training & Certification (2025)
- Industrial Networking Essentials – Cisco Networking Academy (2025)
- Network Defense – Cisco Networking Academy (2026)
- CPR – Volunteer Firefighters (2018)

FEATURED PROJECTS

- Capstone network topology (Packet Tracer): VLANs, ACLs, SSH, STP, OSPF, SVI, EtherChannel, NAT, DHCP, and WAN with BGP.
- Final thesis project (Unity + Web): video game development with a custom backend.
- Lab projects: PHP/CodeIgniter CRUDs, N8N automations, advanced Google Sheets scripts.

LANGUAGES

Spanish: native | English: B1+ (technical conversation)
